

Governor Risk pardoned 18 convicts during the year 1882, of which 12 were from the state prison, 2 from the Milwaukee house of correction, and 4 from county jails.

Congress has taken the matter in hand of enquiring into the conduct of General Sharpe manager of the Soldiers Home at Milwaukee, who refused to send a fire engine at the burning of the Newhall house. General Logan and Congressmen Deuster are the chief movers in the official investigation.

As governor-general of Canada, Lord Lorne, continues to do well. He is still attracting attention at the principal cities in the south, is received, vined, and dined in a royal manner, and takes good care of the princess. He hasn't seen Canada for months, but he draws his twenty thousand pounds a year, all the same, and the seasons come and go in the dominion just the same as if the marquis had no existence.

Capital punishment ought to be in force long enough in Wisconsin that the night clerk of the Newhall house might be rightly disposed of by hanging. He testified before the inquest that he had time to wake every inmate of the house after the fire was discovered, but he wanted to save the valuable papers first. He had twenty-five minutes in which to warn the 177 sleepers, but did not do it claiming that a few papers were of more value than human lives.

A report has been made showing that during the year 1882 there were, in the United States, 730 murders, 101 legal executions, and about 60 supposed criminals cared for by Judge Lynch and his mob. Of the lynchings, 25 were in the south and 6 in Colorado. Of the killings, 212 took place in the south, and 131 in New York, and of the legal executions 53, or more than one-half, were in the southern states. Of the 333 suicides 39 of them occurred in Milwaukee, that contains a population of only about 130,000.

Miss Ella Wheeler, the Wisconsin poetess, went down to St. Louis the other day and saw Mrs. Langtry and Freddie Gebhardt. When she had a long, good look at both of them in the theater, she wrote a nice little article to the Evening Wisconsin, giving her impressions of these two noted characters. She thinks Mrs. Langtry is "just too sweet and lovely for anything." But while Miss Wheeler sounds the praise of Mrs. Langtry, she seems somewhat maddened on Freddie. Now, no one would think for a moment that Ella could get maddened on anybody, but she did on Gebhardt, just a little, and wrote about him with such a tenderness that one could not help but think that she had more admiration for Freddie than for Mrs. Langtry. This interesting letter shows that even Miss Wheeler can fall in love.

The funeral of the unrecognized victims of the Newhall disaster, took place in Milwaukee this forenoon. There were 43 bodies buried—23 by the Protestants and 20 by the Catholics. The funeral services were held simultaneously, the Protestants holding theirs in the exposition building and the Catholics holding theirs in St. John's Cathedral. All the Protestant clergymen in the city assisted in the service at the exposition building, and the Most Reverend Archbishop Heiss was assisted by all the Catholic clergy in Milwaukee. Such a solemn scene had never before been witnessed in the United States. It was the largest funeral ever known in this country except that of President Lincoln at Springfield in 1865. The 43 dead bodies were enclosed in neat imitation rose wood coffins, trimmed with silver mountings.

The Evening Wisconsin gives the following definite information in regard to some of the future plans of Congressman Williams: "Charles G. Williams will not be receiver but register of the land office at Watertown, Da. These offices, through which all sorts of frauds are possible, upon the domain of the country, are quite as important as any in the gift of the president. There have recently been a great many complaints entered against western land offices and when Secretary Teller learned Mr. Williams would accept the registry at Watertown, he hastened to acquaint the president with the fact and the recommendation was at once made. Mr. Williams' long experience in congress on the committee on public lands, together with his well-known honesty, renders him particularly fit for the position named. His appointment will be sent in at the close of the session and he will assume the duties of the office on or about March 15th."

There was founded in Cincinnati during the past season an institution called the American news exchange, which advertised for correspondents in every portion of the country, promising upon the payment of a membership fee of \$5, to give each one an amusement and traveling card entitling him to travel and go to the theaters, etc., free, and to pay from 25 cents to \$2.50 per inch for the news matter which he might send in, according to the number of papers in which it was printed. Those who paid the membership fee of \$5 or \$3, have been swindled, and we are sorry that a few in Janesville have lost money by this scheme. The Gazette is in receipt of letters from all parts of the country asking for advice and information regarding the American news exchange. To one and all we will

say that the institution is a fraud, and all who become members by the payment of the fee charged, or expect to receive any benefit from any amusement or traveling card, will be swindled.

The present frigid condition of the weather has brought out the history of cold winters, and the stories that are told of the intense cold periods of the past, make the winter of 1883 comparatively mild. It is difficult to name the coldest day we have had in the west for the reason that the thermometer during a severe cold spell, will indicate from 38 to 40 below, never, apparently, going lower than these figures. The three coldest days in succession ever known in southern Wisconsin, were the 7th, 8th, and 9th of February, 1875, when the mercury sank to 40 degrees below zero on each morning. There has been no such weather since, and the "coldest inhabitant" was barred from saying that he had seen colder weather previous to that time. The coldest day known in New England for 100 years, was the 30th of January, 1873, when the mercury went down to about 40, and averaged 21 degrees below during the day throughout Massachusetts. Taking the storms and cold together, the winter of 1881 was the most disagreeable of any known in this country for a great many years. But the stories regarding the cold winters of modern times are uninteresting compared with those of "hundreds of years ago." During the "black winter" of 1625, sheep and cattle perished in vast numbers, and great trees of oak and ash were given by the frost, and hundreds of human lives were lost beneath the snow. In 1207, the winter was so intensely cold that travelers in Germany were frozen to death on the roads by the hundreds. In 1467 the weather was so cold in the neighborhood of Venice that the wine had to be cut with a hatchet and given to the soldiers in cakes. In 1753, the two seas at Constantinople were frozen over for a hundred miles from shore. Coming down to the present century—1812—the winter in Russia was extremely cold, and Napoleon, during that terrible campaign, lost thousands of men who perished by the road-side or were frozen to death in their barracks.

Colorado.
DENVER, Jan. 25.—But five ballots were had in the senatorial caucus last night, and while these do not indicate a change, yet there is a manifest disposition on the part of many members to bring the matter to a crisis, and there is a strong probability that this will be done to-night. That some of Pittkin's friends are becoming disheartened there is no doubt, and that a dark horse may yet win the race is rather more than a conjecture.

Politics in Ohio.
COLUMBUS, Jan. 25.—The republican state committee decided yesterday to hold their state convention here June 5 and 6. This is early, for the reason that a long campaign is desired till October, in which to agitate the proposed constitutional amendment striking out the anti-temperance clause and giving the legislature absolute control. Two days were, though necessary, as a full ticket is to be nominated, and with the temperance and anti-temperance factions trouble is expected, and time is necessary to arrange.

Twenty Acres Caved In.
WILKESBARRE, Pa., Jan. 25.—An extensive cave-in has taken place here in the Delaware and Hudson mine in this city. Surface cracks are visible for acres in either direction. A number of homes settled from six inches to two feet, alarming the inmates, who fled. The cave-in has taken place under the surface, and no less than twenty acres have gone down.

Another Oklahoma Invasion.
KANSAS CITY, Jan. 25.—A colony of thirty families will leave Monday for Indian territory led by Capt. B. S. Walden, the last man of Payne's party to leave when driven out by Federal troops two years ago. It is said that five colonies will be met at Coffeyville, and that a march will be made 120 miles into the territory.

The Marquis of Lorne.
WASHINGTON, Jan. 25.—The marquis of Lorne will arrive here to-morrow. A dinner will be given in his honor the same evening by the British minister. The dinner by the president will be given Saturday. The marquis will leave the city Monday.

The Police Broke His Fast.
ST. LOUIS, Jan. 25.—J. W. Wilson, who had been fasting for seventeen days, was arrested by the police, because he refused his meals, and sent to the city hospital.

The Visitor Assaulted with a Hatchet and Left to Perish in the Cold.

Desperate Attempt of Infuriated Citizens to Lynch the Murderer.

SHAWNEETOWN, Jan. 25.—On Saturday night Patrick Hogan, a laborer, got drunk, and about midnight started for his boarding-house—Mike Gairus—one mile north of town, on the Rock road. The night was bitterly cold, and on the outskirts of the city Hogan stopped at a little box-house occupied by a colored man named Porter Holmes and his family. It contains but one room. Holmes was blown up in a boiler explosion last month, but recovered. Arriving at the door, Hogan asked for admittance, stating that he wanted to warm himself. Being informed that there was no fire in the house, he continued his importunities, and moved a few feet from the door to a window. The two men were acquainted with each other. After words had grown hot between them the darker went to the window—whether from the inside or from the outside is disputed—and with a hatchet struck Hogan over the eye, cutting a gash that bled profusely. He then went back to bed. As indicated by the pool of blood near the window, Hogan remained for a while before starting for town. After going about two hundred yards over a vacant piece of ground and passing one residence, he came to the dwelling of Harry Menzener, a highly-respected citizen, and asked for admittance. Mr. Menzener, not knowing that anything was wrong, and considering Hogan merely drunk, let him in. Hogan passed on a few feet to another residence, where he fell from the loss of blood and the cold. He lay there until about 5 o'clock Sunday morning, when Deputy City Marshal Wagner took him and placed him in the calaboose, where he died at 11 o'clock the same morning. An inquest was held, the jury finding that Hogan came to his death from a stroke with a sharp instrument in the hands of an unknown party. When found Hogan was not perfectly conscious, and his story implicating Holmes, who was immediately arrested and placed in jail. On Monday he had a preliminary trial, and after the evidence of the prosecutor and the defense was examined, and Holmes was re-committed without bail. On the preliminary trial an old negro who was sleeping at Holmes' house testified that he saw Hogan come to his death from a stroke with a sharp instrument in the hands of an unknown party. The Barons anniversary festival at the Guards armory this evening.

Pile driving was resumed on the proposed new railroad bridge this morning.

The thermometer indicated eleven degrees below zero at seven o'clock this morning.

We are glad to state that Mr. W. H. Ashcraft, who has been sick for a number of days, was able to be out today.

In the circuit court, yesterday afternoon, Judge Sloan granted a divorce in the case of Mrs. Lydia A. Lord, vs. John B. Lord.

Prof. Severance's dancing school was largely attended last evening, and the social dance from nine until twelve was a most pleasant one.

Miss Jessie Patton returned from Chicago yesterday, where she visited her sister Mrs. Charles L. Dudley, and attended Her Majesty's opera.

The meeting at Court Street M. E. church, last evening, for the purpose of organizing a singing school, was well attended, and arrangements were made for organizing a school for the winter.

Mr. Sanborn, of Sanborn & Caniff, who had the misfortune to lose one of his legs in the late war, accidentally slipped and fell on the sidewalk a day or two ago, and is now suffering a painful sprain in the hip.

The public schools were all re-opened this morning, but the attendance was not general, many of the departments contained fewer scholars than on Monday, when the thermometer indicated 33 degrees below zero.

There was quite a large gathering at the home of Mrs. Rolston on Academy street last night, the occasion being a social by the members and friends of the Presbyterian church. Over fifty sat down to well spread tables.

A great many complaints are being made in regard to the condition of the sidewalks on Court and South Third streets. Much of the snow has not been cleaned off which proves a great inconvenience to foot passengers.

The town of Lima is the first township in Rock county to step forward and settle with the county treasurer for the state and county tax of 1882. The town treasurer only returned \$5.75 delinquent tax in the town. Last year, Porter was the first town to settle, making a clear record by paying the whole amount of tax assessed in that town.

Mr. John Fitzgerald entertained about twenty of his intimate friends last evening, at the residence of Mr. and Mrs. C. H. Wilcox, of the second ward, in the most happy and pleasant manner. A magnificent supper was provided, to which all did ample justice. After a few hours sociability the company dispersed, all being more than pleased with the princely manner in which Mr. Fitzgerald had entertained them during the evening.

Rev. G. W. Wells, formerly pastor of the First M. E. church in this city, is very dangerously sick at his home in Oshkosh. Mr. Wells has many very warm personal friends in this city who take a deep interest in his welfare, and will offer earnest prayers for his recovery. The Oshkosh Northwestern of yesterday, has the following: "Rev. G. W. Wells is very low to-day. A council of physicians is being held this afternoon. It is the feeling among the friends of Mr. Wells that there is but faint hopes of his recovery."

The department of Wisconsin, of the grand army of the republic have just held their seventh annual encampment at Portage. Owing to the extreme cold weather, there was not as large an attendance as was expected. Mr. E. G. Marlow, of the W. H. Sargent post, being the only delegate who attended from this city. The following officers were elected for the ensuing year, Department Commander—Phil. Cheek, of Baraboo; Senior Vice Commander—Richard J. Flint, of Menomonie; Junior Vice Commander—C. W. Mr. Robert McGeehy, of Algona, Iowa, who formerly resided in this city, is now here, visiting with his father-in-law, Mr. P. M. Finch, of the third ward. Mr. McGeehy brought along the pelts of eight full-grown wolves, as a present to Mr. Finch. The wolves were killed by Mr. McGeehy this winter in Iowa. He is a very successful wolf hunter, having succeeded, with the aid of three stage dogs (one of which belongs to Dr. St. John, of this city) and a club, in killing fourteen, the most of the killing being done by the dogs. The pelts now in the possession of Mr. Finch are very fine ones; he proposes to have them tanned and made into a robe, for his own use. These pelts were on exhibition for a short time today, in the court house, but no bounty was claimed for them.
